SWEET FAIR

- STEP ONE**
Gather several sheets of paper and a small piece of tape. Place a sheet of paper on top, then place another sheet on top, then another sheet on top, and so on, until you have a stack of paper to use as a mold.
- STEP TWO**
Remove the top paper, and add a 1/2 cup strawberry jam to the top. Press for another 30 minutes, or until your stacking layer has set.
- STEP THREE**
Top your cake with a layer of homemade jam, and give them a final touch of jam to the surface.
- STEP FOUR**
When all the layers are done, remove the paper from the surface. If needed, use a small piece of tape to hold the paper together. The jam will be sticky, so use a small piece of paper to hold the paper together. Use a small piece of paper to hold the paper together.
- STEP FIVE**
When all the layers are done, remove the paper from the surface. If needed, use a small piece of tape to hold the paper together. The jam will be sticky, so use a small piece of paper to hold the paper together. Use a small piece of paper to hold the paper together.
